REVIEW OF MARKETS

FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

NEW YORK, Dec. 25.—Wall Street epent a very dull day to-day and took great comfort therefrom as a grateful relief from the painful activities of last great comfort therefrom as a grateful relief from the painful activities of last week. The fact that the stock exchanges in London and in Germany were closed had an influence towards duliness, in view of the great importance attached to the course of events at those places. The London market particularly will be eagerly scanned tomorrow to get an idea of the progress of the settlement, which has caused grave anxiety. The strength showh by international stocks in this market was indication of confidence in a quiet settlement in London. The London market for Americans has become so narrow, and is so subject to manipulations that the cable quotations in other parts of the market were awaited before conclusions are drawn. Sterling exchange in New York was without quotable change, and to-morrow's steamers take only a single shipment of, gold, amounting to \$500,000. The sterling exchange rate in Paris reached fully 3½ centimes, indicating a notable relaxation in the London pressure on that centre. Here the money ruled easy all day from 2½ to 6 per cent. These various indications awakened some confidence that the stress of the preparations for the January first disbursements of dividends and interests is past. The depositing of the internal revenue. ie of events in Boston to-day was viewed with much satisfaction from street. The consequence was a marricle displayed many examples of eed strength, although the dealings very dull throughout. That the nd was considerably made up from short interest was evident from arge gains shown by stocks which been recently sufferers from bear ulation. The higher ranges of s did not bring any severe preson Houldation, having fair grounds e on liquidation, having fair grounds confidence that forced lquidation is an end. The market receded at invals in a semi-stagnant condition, the closing was strong, though very it.
